**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/22/06 has been entered.

### ***Specification Objection***

2. The summary of the invention is objected to under 37 CFR 1.73 because the claimed features of “detecting a user's choice by receiving information generated in response to signals from the user input device to indicate a filtering methodology selected by the user for each dimension chosen by the user, wherein the filtering methodology is selected by the user from a plurality of filtering methodologies” “sending to the user computer only sections of the web page selected by the user that meet the respective values for the chosen dimensions and the corresponding filtering methodologies”; “accepting signals provided by a document creator via the user input device to create a document, the document having a plurality of sections: and accepting signals provided by the document creator via the user input device to assign a value for at least one dimension to each section of the document wherein a first section of the document and a second section of the document are associated with different values for the same dimension, and wherein the user is given access to the plurality of sections of the document based on the values assigned to the corresponding dimensions by the document creator” is not

disclosed in the summary of the invention. The abstract is objected to under 37 CFR 1.72 (b), because it does not describe the invention of the allowed claims.

Appropriate correction is required.

***Drawings***

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the “accepting signals provided by a document creator via the user input device to create a document, the document having a plurality of sections and accepting signals provided by the document creator via the user input device to assign a value for at least one dimension to each section of the document wherein a first section of the document and a second section of the document are associated with different values for the same dimension, and wherein the user is given access to the plurality of sections of the document based on the values assigned to the corresponding dimensions by the document creator” must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an

Art Unit: 2142

application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
